## PURSUE OUR PASSION PROGRAMME

### What it is about

In line with the school's vision, "Learners Driven by Passion, Leaders Guided by Values", we aim to create a safe and conducive environment that encourages our West Springers to pursue passions beyond their CCAs or those not offered in school.

### Take CHARGE, Take ACTION!

Through specially designed POP sessions, our West Springers participate in activities and conversations with like-minded POP mentors and friends from different levels, enabling them to discover their interests and passions, whilst collaborating to plan meaningful activities that engage the school community.

# What we would like to achieve

The "Pursue Our Passion" (POP) Programme aims to:

- nurture the joy of learning in our West Springers and encourage them to pursue their passions
- create a safe environment for students to develop the knowledge, skills and dispositions needed to pursue their passions—these soft skills will enable them to become confident and lifelong learners
- allow our students to celebrate their successes beyond academic achievements
- build friendships that will serve them well beyond Primary School
- create mutual understanding and respect to foster a more collaborative and accepting school culture.

# How can you encourage your child to pursue his/her passion?

## 3. Nurture the "can do" attitude

Learning something new is not easy.

Grit = passion + perseverance.  
Grit is the ability to persist in something you feel passionate about and persevere when you face obstacles.

## 4. Let them dream big.

Some ideas and dreams may sound improbable but they should always be welcomed.

## 1. Encourage him to explore different avenues.

It's important to help encourage your child to get involved with as many different activities as possible. Best still, get the whole family involved!

## 2. Communication is key: Get to know his passion, leave out any judgement

No passion is too big or too small!

## 5. Guide them to find balance.

Be sure to maintain a healthy balance by:

- not pushing them too hard: Encourage them to work hard, but allow them some breathing space too.
- guiding your child to find the right balance: We do not want them to be overly obsessive that it conflicts with other areas of their life and worse, leads to addiction.
